Re: Technology Transitions Policy Task Force, GN Docket No. 13-5

Dear Ms. Dortch,

On April 29, 2013, I spoke by telephone with the following members of the FCC's Technology Transitions Policy Task Force: Sean Lev, General Counsel and Task Force Interim Director; Marcus Maher, Assistant General Counsel, Administrative Law Division, Office of General Counsel; Claude Aiken, Office of General Counsel; Jonathan Chambers, Acting Chief, Office of Strategic Planning & Policy Analysis; Steve Wildman, Chief Economist; Henning Schulzrinne, Chief Technology Officer; Carol Matthey, Deputy Chief, Wireline Competition Bureau; Tim Stelzig, Deputy Chief, Competition Policy Division, Wireline Competition Bureau; Al Lewis, International Bureau; Patrick Halley, Deputy Director, Office of Legislative Affairs.

The purpose of the meeting was to present my thoughts on some issues raised by the migration from the legacy Public Switched Telephone Network ("PSTN") to next generation services that will use Internet switching and transmission. Attached is a copy of the powerpoint presentation slides, titled *Reframing Debate of the PSTN-to-IP Transition: Lessons from U.S. v. Canadian Experimentation*. Also attached is a copy of my legal opinion filed on behalf of the Public Internet Advocacy Centre in the proceeding before the CRTC, *Obligation to Serve and Other Matters*, CRTC Telecom Notice 2010-43, which during the meeting I stated that I would provide.

Respectfully submitted,

Barbara A. Cherry

Professor
Department of Telecommunications
